Their Clues Lead to Nowhere in Murder Case at

[Special to The Times-Dispatch.] ALEXANDRIA, VA., March 12.---Where was Walter F. Schultz between the hours of 12 noon and 3 o'clock? the hours of 12 noon and 3 o'clock?
This question has balked the police department up to the present time. If this question could be answered the police believe that they would have something tangible to work on regarding the death of the Chicago artist, whose body was found with his throat put Sunday morning on the outskirts of the city.

The reason the police are so anxious to learn his whereabouts during these

The reason the police are so anxious to learn his whereabouts during these three hours is that witnesses will testify, when the Coroner's jury reconvenes, that Schultz's body was not where it was found at noon, and others will testify that it was there at 3 release.

This morning Chief Goods received

This morning Chief Goods received the following letter anent the case from Mrs. M. Hullihan, 227 Franklin Avenue, Mount Vernon, N. Y.: "Please tell me something regarding the man found in the woods. There is a man missing here, but he has two red moles on his back, and an eyetooth capped with gold; one of his toes is partly gone from an operahis toes is partly gone from an operation; light complexion and German; about thirty-five years; weighs 135 pounds. So please let me know if this corresponds."

corresponds."

The description given by the writer of the missing man from Mount Vernon tallies with that of the dead man, although it is regarded as impossible that it is the man she is searching

for. Chief Goods has had the majority of

ced regarding the progress of the case, and refused to make a statement in reference to the case. He admitted that he notified the Washington Police Department following the finding of the body. As Schultz is supposed to have stopped over in Washington it is generally believed by the police that the trunk his people claim he had in his possession is located in some lodging-house in that city.

As constant is progress of the case, accidental, and that included the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and that he declared repeatedly before he died that the affair was an accident, and this prother punished. The circumstances had an element of criminal carelessness in the handling of the gun, and this caused the sentence. The Governor states that the widow of the brother is at the suggestion of the friends of the widow of the brother is at the suggestion of the province of the provi

Ing-house in that city.

The supposition that the wrong body had been shipped to Chicago was dispelled this morning when, according to a dispatch from that city, the body of Walter F. Schultz was the right one, and not the Walter F. Schultz missing from Nebraska, whom the police thought it might possibly be.

With the passing of five days since the finding of Schultz's body, the mystery as to how he came to his death for the Times-Dispatch.]

a miding of schultz's body, the mys-yas to how he came to his death indeed, just as baffling as it was the beginning. Clues of an end-s variety have been run to earth thout furnishing one atom of evi-nce, and as the case now stands it just the same as it was Sunday reing.

Interest in the case, however, is un-thated, and, if anything, is on the in-rease. Large numbers of citizens are tying with the members of the police department in trying to unravel what is thus far regarded as one of Alex-andria's unsolvable mysteries.

RALEIGH, N. C., March 12.—A distinguished company gathered in the
Senate chamber of the State House at
11 o'clock to-day for the ceremony of
presenting to the State a handsome oil
painting of David Paton, the distinguished architect of the North Caro-lina Capitol building, in which the ceremony was held. The presentation address was by Captain S. A. Ashe and the acceptance by Governor Kitchin. The painting is the work of Jacques Busbee, of this city, and is the gift of Mrs. C. E. Foy, of Newbern, p-4 Mrs. Shute, of New York, daughters of the architect. The address by Captain Ashe reviewed the career of Mr. Paton, treating especially the designing and construction of the State House, which was completed in the summer of 1840 at a cost of \$520,000.

LEESEURG. VA., March 12.—Owen
I. Thomas, of Bluemont, has announced
his candidacy for the House of Delegates from Loudoun. He is a farmer,
and has for many years been a member of the board of directors of the
People's National Bank, of Leesburg.
He is opposed for the nomination by
Dr. B. F. Noland, a physician of Broad
Run District, and by T. Benton James,
chairman of the Board of Supervisors
of the county. The present floater delegate, representing Loudoun and Fauquier, is John Orr Daniel, who will be
opposed for a renomination by Harry
Tazewell Harrison. It has been currently reported that David B. Tennant
would be a candidate, but this rumor
cannot be confirmed. All the candidates are well known, and an interesting contest is pending.

"I began using Postum about a year ago while stopping at the home of friends during the absence of my wife.

"It seemed almost providential, for during that time I got rid of coffee and its attendant ills. I used to have billous attacks about every two weeks that completely used me up for a day or two at a time.

"I did not suspect coffee, and was unable to account for these attacks. Since I began Postum I have had but one slight attack, and the change to restored health is most acceptable.

"My wife declared on her return that nothing would induce her to give up coffee, but after a few careful preparations of Postum, according to directions on pkg., she thought it was superior to coffee in flavour, and now we would not change back to coffee.

"We feel we owe a debt of gratitude to Postum, which has done so much for all of us—children and older ones."

Insurance Bill Enrolled and Ratified After It Had Been

Tabled.

[Special to The Times-Dispatch.]
RALEIGH, N. C., March 12.—The first "mix-up" of any importance that has yet come to light in connection with the rush and confusion of the closing hours of the General Assembly is that involving "An act to amend Chapter 100, Revisal, as to domestic insurance companies." This bill was enrolled and ratified as No. 1319, the very last bill ratified, whereas, in reality, the bill was tabled in the House in due form the last day of the seession. The facts seem to be that the bill had passed the Senate and acme over to the House, where it was on the calendar for quite a while. Then, on Monday night, it passed its readings and was ordered enrolled. The next day Representatives Turlington and Lee raised some fisue about the bill. The House was in a mood to table most anything, as the journal will show, and to the table the bill went. The outer-fold of the bill went at the stamp and indozesements as to the tabling of the measure as to the tabling of th

It was due to this fact that the bill in the end landed in the enrolling department, was enrolled and actually ratified, receiving the signatures of the president of the Senate and the Speaker of the House, and now, in fact, has its place in the files of the Secretary of State, among the acts of the Legislature now the law of the land.

Important Measure.

The bill was an important one, was preparted and urged for enactment by the State Insurance Department. It provides that domestic life insurance companies can establish guarantee funds for according extra safeguards for the insurers or policyholders. They have the right to do this now, it seems, and this change was merely to give State sanction and surbor the Commissioner of the committee a resolution was adopted that the committee a secretain the cost of the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City Council, so that the erection of the building under Nelf and Thompson's plans and report impediately to the City C Tennessee, Governor Kitchin has retained as associate counsel with Attorney-General Bickett, Hon, Theodore F. Remarkable Christmas

Present.

ORDINANCE ILLEGAL.

Among the curious Christmas presents of this year will be one for a man of national reputation, which has been all year in the making.

Way last January the present was decided upon, and a friend of the prominent gentleman requested the Burrelle Press Clipping Bureau, of New York, to watch every paper in America and to take up every item which appeared concerning the man.

The clipping bureau people followed instructions, and now present the history of one year in the life of this especial man.

The history ends just after election, and the 20.542 newspaper items found include everything from a three-line editorial mention to rull-page illustrated stories. These have been mounted on 3.200 great sheets of Irisk linen paper and bound into three massive volumes.

At the head of each item is the name and date of paper clipped from, this information having been put in with a book typewriter. The words thus inserted amount to 152.552.

In actual time, a very strict record of which has been kept, the work has required sixty-four working days throughout the year, and has kept in employment during that time thirty people, as readers, clippers, sortera, mounters and binders. Every newspaper of importance is represented.

This is merely a specimen of some of the unique orders which get into the Burrelle Bureau, for the extent to be remarkable.

There are many people in private as to be remarkable.
